

SilentDrive®

Garage Door Opener

WARRANTY

Limited Lifetime

CONVENIENCE, QUIETNESS, SECURITY

The Hörmann SilentDrive® garage door opener brings you the latest in German engineering and manufacturing excellence. All SilentDrive® openers are built with a DC motor and a composite aramid fiber reinforced belt drive system that provide a very quiet operation, dramatically enhancing your total quality experience. The adjustable “soft” start and “soft” stop feature allows minimum wear on the door and opener, ensuring a quiet-running door at every stage of opening and closing. With a SilentDrive® opener you benefit not only from the safety features compliant with UL 325 requirements but from the unique Hörmann Beltension Guard™ and the EngageLock™.

- **Maintenance free**
- **Ultra smooth and quiet**
- **Energy-saving**
- **Door security device**
- **Compliant with UL 325**

No matter which SilentDrive® opener suits your needs, you will never compromise on quality.

All SilentDrive® openers are built with a DC motor and come with a belt drive system. The DC motor and Belt Drive System make for very quiet operation, dramatically enhancing your total quality experience.

The dual bulb and lens covers diffuse the lighting in your garage while you enter or exit your garage. A three minute auto delay shuts your lights off automatically for your convenience.

Hörmann Innovations

Belt Tension Guard

Hörmann SilentDrive® garage door openers come with the unique Beltension Guard™ built into the opener rail, to maintain proper belt tension for the life of the opener.

EngageLock™

Hörmann SilentDrive® garage door openers are equipped with the unique EngageLock™ built into the opener rail. It eliminates door back drive action in the event of a power loss, securing your home and property.

Aramid Fiber Reinforced Belt

Hörmann's unique aramid fiber reinforced belt will not rust, limits wear & tear, resists moisture and never needs lubrication. This special belt system provides a quiet ride and many years of worry free operation.

AVAILABLE FROM:

Standard Accessories

Deluxe Wall Console Station

Operates the door from inside your garage and independently operates opener lights. A separate lock button eliminates the need to unplug the operator during extended absences.

Mini transmitter

The conveniently sized transmitter allows you to control up to four separate doors.

Optional Accessories

Wireless keypad

Lighted and covered keypad allows for wireless remote access to your garage with your own programmable personal security code for your convenience. Stores up to 3 personal codes.

Single button transmitter

Used as an additional device for operating a single door.
